DANISH JUNED PATWEKAR

PL-SQL Developer | +91-8862032096 | danishpatwekar24@gmail.com | https://www.linkedin.com/in/danish-patwekar | https://danishpatwekar.github.io/MyPortfolio/

SUMMARY

Detail-oriented PL/SQL & Database Developer with hands-on experience in SQL, database design, and query optimization. Skilled in developing and optimizing PL/SQL procedures, functions, and queries to meet business requirements while ensuring performance, data integrity, and security. Experienced in debugging, testing, documentation, and providing production database support. Strong collaborator with cross-functional teams to deliver reliable, scalable database-driven solutions.

EXPERIENCE

06/2025 To 11/2025   Software Engineer (Data Systems)

Nexanova Protech

- Designed relational database schemas for an Institution Management System.
- Implemented optimized SQL queries for managing student, faculty, and subject data.
- Participated in code reviews and maintained technical documentation.

07/2024 To 10/2024   Software Engineer (Data Systems)

AiVaraint

- Designed and optimized SQL queries and database schemas to support high-volume transactional systems.
- Wrote efficient SQL queries for CRUD operations and reporting.

SKILLS

➢ **Database & PL/SQL**
  - SQL, PL/SQL (Procedures, Functions, Packages, Triggers, Cursors),
  - Query Optimization, Indexing, Performance Tuning,
  - Database Design, Normalization, Constraints, Data Integrity & Security.

➢ **Programming & Tools**
  - Oracle Database, MySQL, SQL Developer.
  - Git, GitHub, Postman.

➢ **Core Competencies**
  - Analytical Problem-Solving.
  - Collaboration & Communication, Data Quality Validation.

PROJECTS

➢ Expense Management System. | View Project
